

Fidelity Private Credit Fund

Information provided herein is for discussion and illustrative purposes only and is not a recommendation or an offer or solicitation to buy or sell any security or for any investment advisory service.

This sales and advertising literature is neither an offer to sell nor a solicitation of an offer to buy securities. An offering is made only by the prospectus. **This literature must be read in conjunction with the prospectus in order to fully understand all of the implications and risks of the offering of securities to which the prospectus relates. A copy of the prospectus must be made available to you in connection with any offering.** No offering is made except by a prospectus filed with the Department of Law of the State of New York. Neither the Securities and Exchange Commission, the Attorney-General of the State of New York nor any other state securities regulator has approved or disapproved of our securities or determined if the prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

For use with eligible investors only. | © 2025 FMR LLC. All rights reserved.

Risk Factors

Investors should review the offering documents, including the description of risk factors contained in the Fund's [Prospectus](#) (the "Prospectus"), prior to making a decision to invest in the securities described herein. The Prospectus will include more complete descriptions of the risks described below as well as additional risks relating to, among other things, conflicts of interest and regulatory and tax matters. Any decision to invest in the securities described herein should be made after reviewing such Prospectus, conducting such investigations as the investor deems necessary and consulting the investor's own legal, accounting and tax advisors in order to make an independent determination of the suitability and consequences of an investment in the Fund.

- We have no prior operating history and there is no assurance that we will achieve our investment objective.
- An investment in our Common Shares may not be appropriate for all investors and is not designed to be a complete investment program.
- This is a "blind pool" offering and thus you will not have the opportunity to evaluate our investments before we make them.
- You should not expect to be able to sell your shares regardless of how we perform.
- You should consider that you may not have access to the money you invest for an extended period of time.
- We do not intend to list our shares on any securities exchange, and we do not expect a secondary market in our shares to develop.
- Because you may be unable to sell your shares, you will be unable to reduce your exposure in any market downturn.
- We intend to implement a share repurchase program, but only a limited number of shares will be eligible for repurchase and repurchases will be subject to available liquidity and other significant restrictions.
- An investment in our Common Shares is not suitable for you if you need access to the money you invest.
- We cannot guarantee that we will make distributions, and if we do we may fund such distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, or return of capital, and we have no limits on the amounts we may pay from such sources.
- Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by the Adviser or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to the Adviser or its affiliates will reduce future distributions to which you would otherwise be entitled.
- We use leverage, which will magnify the potential for loss on amounts invested in us.
- We qualify as an "emerging growth company" as defined in the Jumpstart Our Business Startups Act and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make our Common Shares less attractive to investors.
- We intend to invest primarily in securities that are rated below investment grade by rating agencies or that would be rated below investment grade if they were rated. Below investment grade securities, which are often referred to as "junk," have predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal. They may also be illiquid and difficult to value.

Fidelity Alternative Investments

Alternative Investments at Fidelity

Investing beyond the traditional

Reasons to consider adding alternatives to a portfolio

EXPANDED INVESTMENT UNIVERSE

Alternative investments can be a way to **expand beyond traditional asset classes**, providing additional investment options to potentially grow and protect your wealth.

ENHANCED RETURNS AND INCOME

Various types of alternative investments can help **improve total returns and income**, potentially bolstering a portfolio's overall performance across market cycles.

DIVERSIFICATION

Alternative investments can provide returns that differ from traditional investments as well as the opportunity to **manage risk**.

Alternative investment strategies may not be suitable for all investors and are not intended to be a complete investment program. • Alternatives may be relatively illiquid; it may be difficult to determine the current market value of the asset; and there may be limited historical risk and return data. • Costs of purchase and sale may be relatively high. • A high degree of investment analysis may be required before investing. • Alternative investments are subject to eligibility requirements.

Diversification does not ensure a profit or guarantee against a loss. Alternative investments are not all created equally, nor will all strategies provide or experience the desired benefits referenced. Performance of any alternative investment may be different than expected.

Types of Alternative Investments

Expanding the investment universe through a range of categories

PRIVATE EQUITY

Seeks to provide **enhanced long-term capital appreciation** by investing in the equity of private, non-traded companies and helping them optimize operations to drive future growth.

PRIVATE CREDIT

Seeks to provide **higher income and/or total returns** versus public credit markets by investing in privately-negotiated loans, bonds, or other below investment grade debt instruments.

REAL ASSETS

Seeks to provide **attractive total returns, diversification from traditional investments**, and income through exposure to physical assets such as real estate, infrastructure, and agriculture.

LIQUID ALTERNATIVES

Seeks to **diversify and manage risk by generating less correlated returns** using a combination of stocks, bonds, commodities, currencies, leverage, and derivatives.

DIGITAL ASSETS

Seeks to provide **growth and diversification** by investing in digital assets such as cryptocurrencies and other crypto tokens.

Fidelity Private Credit Fund

Access to Direct Lending for Investors Seeking Current Income and Attractive Risk-Adjusted Returns

Fidelity Private Credit Fund

Access to direct lending: Potential for attractive current income & risk-adjusted total return

Attractive Return Profile

Investments in directly originated floating rate loans generate returns from contractual interest payments, helping reduce volatility and mitigate risk

Capital Preservation

Investments focused on senior secured debt which is the most protected portion of the capital structure, helping protect investments from losses

Monthly Income Distributions¹

Investments generate attractive income through regular, contractually determined interest payments which is paid out to investors monthly

FIDELITY PRIVATE CREDIT FUND: A BUSINESS DEVELOPMENT COMPANY (BDC)

Access to Private Credit with low minimum investments

1099
Tax Reporting

Quarterly liquidity up to 5.0%²

¹Monthly distributions are not guaranteed and are subject to Board approval.

²As of December 31, 2024. Share repurchases are also not guaranteed and are subject to board approval. Quarterly liquidity of up to 5.0% of fund shares at NAV quarter end. For use with eligible investors only.

Direct Lending: Historically Stable & Attractive Returns

Hypothetical growth of \$100,000 using quarterly index returns since 2015

Historical returns of **direct lending** have exhibited the consistency of **public fixed-income**, total returns comparable to **US stocks**, and more modest declines than **US stocks** and **public high yield** in periods of stress.

TIME OF STRESS: COVID LARGEST PEAK TO TROUGH DRAWDOWN OF EACH ASSET CLASS

For illustrative purposes only.

Past performance of an index is no guarantee of future results. An investment may be risky and may not be suitable for an investor's goals, objectives and risk tolerance. Investors should be aware that an investment's value may be volatile and any investment involves the risk that you may lose money. The chart depicts the growth of a hypothetical \$100,000 invested in the indexes specified. If invested on September 30, 2015 using quarterly returns of various indexes. It is shown for illustrative purposes only and not intended to represent the past or future performance of any investment strategy or product. It is not possible to invest in an index; index performance does not include any fees that would apply to an investment in an actual security product. Direct Lending, US Stocks, Public High Yield and Public Fixed income represented by the Cliffwater Direct Lending Index, S&P 500 Index, ICE BAML US High Yield Index and the Bloomberg Barclays US Aggregate Bond Index respectively. Source: Cliffwater, Standard & Poor's, ICE Data Services and Bloomberg, as of September 30, 2024. Drawdown for COVID 19 was peak to trough for HY (2/20/20–3/23/20), BBG US Aggregate (3/9/20–3/19/20), and DL (12/31/19–3/31/20).

LEVERAGED CREDIT CAPABILITIES

Assets under management includes all Fidelity investment products, such as mutual funds and managed accounts.
All figures, rounded, as of December 31, 2024. Direct Lending AUM reflects buying power across all vehicles.
For use with eligible investors only.

Fidelity Direct Lending Track Record

Bottom-up credit investors focused on downside protection

Source: Fidelity Investments, performance as of December 31, 2024. Fund inception date is March 13, 2023. Current performance may be higher or lower than that quoted. Performance data shown represents past performance and is no guarantee of future results. Investment return and principal value will fluctuate, so you may have a gain or loss when shares are sold. Class I does not have upfront placement fees.

1. Total Net Return is calculated as the change in NAV per share during the period, plus distributions per share (assuming dividends and distributions are reinvested) divided by the beginning NAV per share and are net of Fidelity Private Credit Fund's (the Fund) fees and expenses. Returns greater than one year are annualized. Returns exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year. The returns have been prepared using unaudited data and valuations of the underlying investments in the Fund which are estimates of fair value and form the basis for the Fund's NAV. The Adviser reimbursed or waived a portion of the Fund's expenses. Absent such reimbursement/waiver, returns would have been lower.

2. Annualized distribution yield is calculated by annualizing the current declared distribution and dividing by the last reported monthly NAV. We cannot guarantee that we will make distributions. Distributions have been and may in the future be funded through sources other than cash flow from operations, including the sale of assets, borrowings, return of capital, or offering proceeds, and we have no limits on the amounts we may pay from such sources. Please see the Important Information section for more details.

3. Closed Private Credit Investments, Unique Sponsors and Median EBITDA across all vehicles as of December 31, 2024.

As of December 31, 2024. See next page for disclosures.

Fidelity Private Credit Fund: Principal Terms Disclosures

Fees and Expenses shown are intended to assist you in understanding the costs and expenses that an investor in Common Shares will bear, directly or indirectly. Other expenses are estimated and may vary. Actual expenses may be greater or less than shown.

1. The Managing Dealer has waived or reduced from \$1,000,000 for certain categories of investors.
2. Under our share repurchase program, to the extent we offer to repurchase shares in any particular quarter, we expect to repurchase shares pursuant to tender offers using a purchase price equal to the NAV per share as of the last calendar day of the applicable quarter, except that shares that have not been outstanding for at least one year may be subject to a fee of 2.0% of such NAV. The one-year holding period is measured as of the subscription closing date immediately following the prospective repurchase date. The Early Repurchase Deduction may be waived in the case of repurchase requests arising from the death, divorce or qualified disability of the holder. The Early Repurchase Deduction will be retained by the Fund for the benefit of remaining shareholders.
3. We have entered into the Expense Support Agreement with the Adviser pursuant to which the Adviser is obligated to advance all of our "Other Operating Expenses" (each, a "Required Expense Payment") for the 12-month period commencing September 23, 2022, and unless terminated, for each successive one-year period, to the effect that such expenses do not exceed 0.70% (on an annualized basis) of the Fund's NAV. The Adviser may elect to pay, at such times as the Adviser determines, certain expenses on our behalf (each, a "Voluntary Expense Payment" and together with a Required Expense Payment, the "Expense Payments"), provided that no portion of the payment will be used to pay any interest expense or distribution and/or shareholder servicing fees of the Fund. The Adviser will be entitled to reimbursement of an Expense Payment from Fund under certain conditions. However, the Adviser has waived its right to receive any reimbursement effective from the Fund's inception date until such time as revoked by the Adviser upon thirty days' prior written notice to the Fund. Because the Adviser's obligation to make Voluntary Expense Payments is voluntary, the fees above do not reflect the impact of any Voluntary Expense Payments from the Adviser.

COMPANY OVERVIEW

The Company provides a wide breadth of HVAC OEM offerings to its customers and has a highly specialized and technical salesforce that are consulted by customers when determining an HVAC solution.

INVESTMENT THESIS

Utilized Fidelity resources early in the diligence process, resulting in certainty of execution for a longstanding Sponsor relationship with members of the Direct Lending team having successfully closed multiple previous financings. We provided a high conviction proposal to a company that has a diversified platform with a defensible market niche in a mature industry.

We were able to complete this transaction by leveraging FMR Real Estate Operations (Pembroke) to diligence purchase considerations and replacement cycles of HVAC units for commercial buildings. The Direct Lending team also worked with Fidelity equity analysts' that cover major HVAC OEMs for insights on market positioning of OEMs on Company line card along with near-term business outlooks.

COMPANY OVERVIEW

The Company provides software and technology-enabled support and development services for federal government customers.

INVESTMENT THESIS

Fidelity Direct Lending team transacted with the Sponsor across multiple prior realized and existing platforms with successful outcomes both in a lead and club participant capacity. The relationship allowed us to provide an attractive financing solution to a company that offers a compelling value proposition through high customer and revenue retention rates, and high barriers to entry in an industry with secular tailwinds.

Fidelity Direct Lending leveraged Fidelity analysts' extensive knowledge of the GovTech Services and Defense sectors to diligence market outlook, government budget environment, and long-term budget growth. We provided high conviction responses on an expedited timeline given knowledge advantage over other lenders acquired through the Deal Team's experience and access to broader Fidelity resources.

For illustrative purposes only. Closed or pending deals may not be indicative of future deals.

COMPANY OVERVIEW

The Company manufactures research-use-only, functional grade antibodies used in *in vivo* (i.e., in live animal models) pre-clinical research focused on oncology and immunology.

INVESTMENT THESIS

Fidelity Direct Lending team leveraged a 10+ year relationship with key principals at the Sponsor to provide a flexible financing solution to a company with a defensible market niche, diversified customer base, consistently high operating margins and favorable industry dynamics.

Fidelity Direct Lending team drew on in-house equity analysts' extensive knowledge of the highly complex and niche segment of the biotech industry to inform our diligence process and provide insights to the Sponsor. We also utilized independent third-party research reports obtained through Fidelity's analysts that validated the Company's market positioning and breadth of industry citations relative to competitors. Our process allowed us to provide a high conviction proposal on an expedited timeline given knowledge advantage over other lenders acquired through the Deal Team's pharmaceutical experience and access to Fidelity resources.

For illustrative purposes only. Closed or pending deals may not be indicative of future deals.

Before making any investment decisions, you should take into account all of the particular facts and circumstances of your or your client's individual situation and reach out to an investment professional, if applicable.

Performance

Total Net Return is net of Fidelity Private Credit Fund's (the Fund) fees & expenses including general and administrative expenses, transaction related expenses, management fees, incentive fees, and share class specific fees, but exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year. The returns have been prepared using unaudited data and valuations of the underlying investments in the Fund which are estimates of fair value and form the basis for the Fund's NAV. Valuations based on unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated.

Distributions

We cannot guarantee that we will make distributions. Distributions have been and may in the future be funded through sources other than cash flow from operations, including the sale of assets, borrowings, return of capital, or offering proceeds, and we have no limits on the amounts we may pay from such sources. Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by the Adviser or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled. The Fund will post notices regarding distributions subject to Section 19(a) of the investment Company Act of 1940, if applicable. Please see the Fund's [prospectus](#) for additional information.
